

STEVENS INSTITUTE OF TECHNOLOGY

Course & Program Catalogue — Academic Year 2025–2026

Published: September 2024 | Office of the Registrar | Catalogue Code: CAT-2526

This catalogue supersedes all prior versions. Course offerings, credit requirements, and degree structures are subject to change. Students are bound by the requirements of the catalogue in effect at the time of their matriculation, unless a formal program substitution is approved.

Part I — Schools and Degree Programs

School of Engineering and Science

The School of Engineering and Science (SES) offers undergraduate, master's, and doctoral programs across 13 departments. All undergraduate engineering programs are accredited by ABET.

Undergraduate B.E. / B.S. Programs

Program	Degree	Typical Credits
Biomedical Engineering	B.E.	128
Chemical Engineering	B.E.	130
Civil Engineering	B.E.	126
Computer Engineering	B.E.	128
Computer Science	B.S.	124
Electrical Engineering	B.E.	128
Mechanical Engineering	B.E.	128
Physics	B.S.	120

Graduate Programs (M.S. & Ph.D.) — Selected

Program	Degree	Credits Required
Artificial Intelligence	M.S.	30
Computer Science	M.S. / Ph.D.	30 / 90
Cybersecurity	M.S.	30
Data Science	M.S.	30
Electrical Engineering	M.E. / Ph.D.	30 / 90
Mechanical Engineering	M.E. / Ph.D.	30 / 90
Systems Engineering	M.S.	30

School of Business

The Stevens School of Business is AACSB-accredited and offers programs integrating technology management with core business disciplines.

Program	Degree	Credits
Business Administration	B.S.	120
Business Intelligence & Analytics	M.S.	30
Finance	M.S.	30
MBA (Technology Management)	M.B.A.	54

Part II — Sample Course Listings

Computer Science (CS) — Selected Courses

Course #	Title	Credits	Offered
CS 101	Introduction to Programming	3	Fall, Spring
CS 284	Data Structures	3	Fall, Spring
CS 334	Algorithms	3	Fall
CS 385	Operating Systems	3	Spring
CS 442	Database Management Systems	3	Fall, Spring
CS 556	Machine Learning	3	Fall
CS 578	Natural Language Processing	3	Spring
CS 615	Advanced Computer Networks	3	Fall

Note: Course offerings subject to instructor availability and enrollment minimums. Cross-listed courses may be taken for either prefix unless otherwise stated.

Mathematical Sciences — Core Requirements

- MA 121 — Differential Calculus (3 credits)
- MA 122 — Integral Calculus (3 credits)
- MA 221 — Differential Equations (3 credits)
- MA 222 — Probability and Statistics (3 credits)
- MA 346 — Numerical Methods (3 credits)

Part III — Academic Policies

Grading Scale

Grade	Points	Grade	Points
A	4.0	C+	2.3
A-	3.7	C	2.0

B+	3.3	C-	1.7
B	3.0	D	1.0
B-	2.7	F	0.0

Minimum GPA for academic standing: 2.0 undergraduate / 3.0 graduate. Students falling below the minimum will be placed on academic probation.
